We feel the need for prominent labeling of the use of the terms "irradiation" or "Irradiated" and the use of the radura symbol.

The proposed alternative terms such as "cold pasteurization" and "electronic pasteurization" are misleading and should not be used.

Irradiated food should be labeled as such, so individuals opposing and avoiding these types of food will be able to do so without any confusion.

Your time and consideration into this serious matter is greatly needed.

Respectfully yours,

Health Seekers Group
